Zyniq View Reference Manager Release Notes v1.0.0 RC1

ZYNIQ VIEW REFERENCE MANAGER
RELEASE NOTES - VERSION 1.0.0 RC1

Release Date:

30 June 2026

Release Type:

Release Candidate (RC1)

OVERVIEW

Zyniq View Reference Manager is a professional Autodesk Revit add-in designed to simplify filter management across projects.

This Release Candidate introduces the first commercial version of the product and includes licensing, enterprise support, and compatibility with Autodesk Revit 2024–2027.

NEW FEATURES

- View Reference Management
Create, manage, and maintain view references across host and linked models.
- Host and Linked Model Support
Manage references between host models and linked models.
- Smart Reference Creation
Create callouts and section references with an intuitive workflow.
- Reference Storage
Persist reference mappings directly within the Revit model.
- Modeless User Interface
Continue working in Revit while ZRM remains open.
- Licensing System
